## Powder Coating Technology 喷涂科技

Nowadays, we have reached a new era of green and sustainability. To avoid the historical pollution problem in the traditional powder coating industry, we have long been searching for a better method to produce high quality furniture that has better weather resistant, and yet remains environmental friendly. Now with our new VIP PERFORMANCE powder coating technology, our metal products can have outstanding rust & corrosion protection under moist and salt occasions. This innovative coating technology can be applied on our steel & aluminum products, it is highly weather resistant, highly stabilized in color, and 100% friendlier to the environment in terms of production or recycle purposes. Our technology is proudly certified by ISO 9227:2017, and we grant an extended warranty of 3 years against rusting on our high quality furniture.

在新时代绿色发展的理念下，为了改变以往传统金属加工行业所造成的环境污染问题，我们一直致力于研发更环保、更防锈的喷涂技术。现在，借助我们全新开发的VIP PERFORMANCE粉末涂料技术，我们的金属产品能在户外极端潮湿和高盐分环境下达到更有效的防锈和防腐蚀保护。这项新技术适用于铁和铝合金的产品上，它具有极高的户外耐候性和色彩稳定度，并且该涂料可以循环回收利用，不造成环境污染。这项技术取得了ISO 9227:2017的盐雾测试认证，对于使用这项喷涂技术的高质量户外家具，我司提供3年有效的户外质保。

# Reimagine outdoor living

Our products balance function and aesthetics with clean lines and simple forms that naturally hug the human body. Tested through years of experience in handling weatherproof materials and design, our products are made to be perfectly in tune with nature.

Enjoy exquisite outdoor life.

## Design Statement

设计宣言

"Representing both modern and elegant set consisted of armchair, two-seater sofa and coffee table, Brioni stands as a personification of outdoor relax and a maximum comfort. Combining materials such as aluminium and teak gives a quite warm natural look emphasizing in the same time an importance of sustainability and relation towards the environment.

Its unique character is achieved by applying the mesh surfaces which in a play with light and shade reveal all the collections finest aspects. "

" 为了呈现出现代与优雅的最佳组合，布里奥尼扶手椅、双座沙发和茶几象征着最大程度的户外休闲和人体舒适感。铝材和柚木的结合赋予了这个世界非常温暖和自然的外观，同时也强调了可持续性和环保因素的重要性。

它的独特性格是通过借助特别的铝网呈现出来的，所以这个系列最优雅的细节会通过光线与阴影的交接作用下流露出来。"

在追求精湛工艺和关注细节与外观的前提下，我们致力交付卓越的品质。

We strive to deliver excellent quality through craftsmanship and attention to all detailing and finishing.
